

TLRA Summer Newsletter – 5/08/21

1. Enclosed are your 2021 Boat and trailer stickers. Place them on both sides of your watercraft and trailers.
2. New TLRA members, please read and become familiar with the TLRA rules and regulations. You should all have received a copy, but if needed, go to www.tlra.co/pdfdocuments/RR.pdf.
3. Now that the east side path has been filled and graded, the TLRA board will focus our efforts on erosion control projects along the east shoreline and the west side of Terry Point. They are currently looking into the cost of materials and equipment. Please give them your input and consider matching funds projects.
4. Approaching the island during nesting season (March – July 31) is prohibited. Keep your distance, and if the wildlife change their behavior, you are too close!
5. Trespassers seem to enter from both the North end and South along the dam. If in doubt, ask if they are members and if they are not, simply ask them to leave. Call a board member if need be, and they can call the sheriff to ticket them for trespassing.
6. Be aware that a bloom of blue-green algae may occur later in the summer and is toxic to dogs.
7. The board is considering for 2022, charging an additional fee for homeowners with more than 2 watercraft. Currently, we have 876 registered for 189 homes, and one home with 18 watercraft costs TLRA \$25 just to print their stickers. Please give your input to a board member.
